Mr. Thomas F. Miller
Box 267
Oakley, Idaho 83346

Dear Mr. Miller:

Re: Planned Site Inspection Vipont Mine site, D/003/007, Box Elder County, Utah

On Monday, May 20, 1991, I and two members of the Division of Oil, Gas and Mining (Division) will be conducting an inspection of the Vipont Mine site. We should arrive at the site at approximately 2:00 PM.

On October 17, 1990, two members of the Division last inspected the Vipont Mine site. Prior to that date several attempts had been made at contacting you via telephone at (208) 862-3309. On September 27, 1990, a message regarding the date and time of the October visit was left with a relative who was caretaking at your residence. During that inspection, several photographs and water samples were taken to document the condition of the mine site.

We would like to meet with you on site, if at all possible, to discuss the current status of the site and the most recent mining activities which took place. Please inform us at your earliest convenience if you or a representative will be able to meet with us on the May date and time mentioned above. Also, if there is another phone number which is more convenient for the Division to contact you, please let us know.

Please contact me or Wayne Hedberg, of the Division, if you have any questions or concerns regarding this issue.

Sincerely,

A handwritten signature in black ink, reading "Anthony A. Gallegos". The signature is fluid and cursive, with the first name "Anthony" and last name "Gallegos" clearly legible.

Anthony A. Gallegos
Reclamation Engineer
